AIR SYSTEMS

Thank You for Your Trust

Welcome and Thank You.

Thank you for choosing an Austin Air air purifier. You've made an excellent choice: Austin Air purifiers have been used in independent clinical studies and are a benchmark in portable air purification.

You may be using your Austin Air purifier for cleaner bedroom air, including with asthma, MCS, allergies or COPD. Whatever the reason, we recommend keeping your Austin unit running in the bedroom 24 hours a day, 7 days a week, 365 days a year. This will ensure maximum protection from airborne pollutants exactly when you need it most.

For complete information about your Austin Air purifier, please take a moment to read this manual.

Register the Warranty for Your Austin Air.

Don't forget to register your new Austin Air purifier online at www.high-techmarket.it, in the "Warranty Registration" section, or by scanning the QR code below:

Instructions for Use

Read all instructions carefully before using the Austin Air purifier. Follow the steps below for easy setup and first use.

- Unpack and remove all packaging material. Take the air purifier out of the plastic bag.

- Fully unwind the power cord and place the Austin Air purifier on a flat, dry, stable surface, at least 10 cm from any wall, with the air intake facing outward.

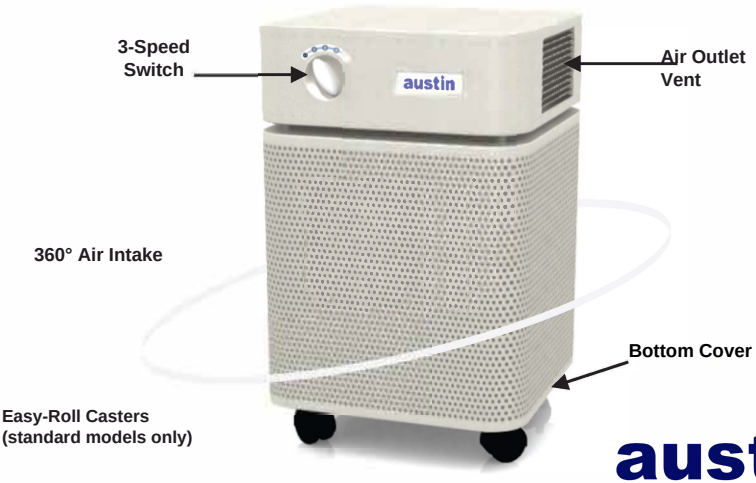

- Make sure the speed control switch is in the off position (0) and plug the power cord into a 220-230V AC, 50/60 Hz wall outlet.

- The Austin Air purifier has three speed settings: high (III), medium (II) and low (I). The highest setting delivers clean air the fastest.

- The first time you turn on the Austin Air purifier, set it to high and let it run for one hour. After one hour, turn the speed control switch to your desired setting.

- The Austin Air purifier is designed to run 24 hours a day, 7 days a week. This ensures optimal filter performance and clean, pollutant-free air.

Features

PLEASE READ AND SAVE THESE SAFETY INSTRUCTIONS BEFORE USING THE AUSTIN AIR PURIFIER.

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and personal injury, including:

1. Read all instructions before using the Austin Air purifier.

2. Always place the Austin Air purifier on a solid, flat, dry, and level surface.

3. The Austin Air purifier must be used in an upright position.

4. Keep the Austin Air purifier away from heated surfaces, open flames, combustible gases, and vapors.

5. Keep the Austin Air purifier and its cord away from areas where they could be stepped on or cause tripping.

6. Before using the Austin Air purifier, unwind the cord and check it for signs of damage. Do not use the Austin Air purifier if the cord is damaged.

7. Keep the Austin Air purifier away from water and other liquids.

8. Do not run the power cord under carpets or cover it with rugs.

9. Always turn off the Austin Air purifier (position 0) and unplug it before moving it, replacing the filter, or when not in use. Be sure to pull the plug itself, not the cord, when unplugging.

10. Do not drop or insert objects into, or allow objects to enter, the openings of the Austin Air purifier. Should this happen, immediately turn off the Austin Air purifier, unplug it, and contact High-Tech Market customer service.

Continued

Important Safety Instructions

11. Do not block the ventilation openings of the air purifier. Blocking the ventilation openings reduces the efficiency of the Austin Air purifier and increases the risk of injury.

12. Do not use outdoors. The Austin Air purifier is intended for indoor use only.

13. To avoid the risk of fire, electric shock, or personal injury, do not use extension cords.

14. Do not sit, stand, or place heavy objects on the Austin Air purifier.

15. Do not use the Austin Air purifier if it is malfunctioning or damaged in any way.

16. Keep out of the reach of children.

17. DO NOT attempt to repair or adjust any electrical or mechanical function of the Austin Air purifier. Doing so will void the warranty. All servicing must be performed exclusively by personnel authorized by us.

Filter Life

Your Austin Air filter is designed to last up to 5 years under normal residential use.

Some homes are more polluted than others, so the filter life of your Austin Air purifier may be reduced.

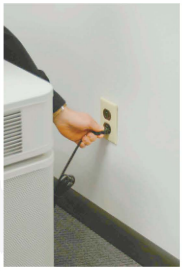

If your Austin Air purifier is used in rooms with unusually high concentrations of tobacco smoke, sawdust, soot, chemical vapors, and/or odors, the filter will need to be replaced more often. In these cases, replace the filter when your Austin Air purifier stops delivering clean, odor-free air. If the odor of the highly concentrated contaminant is present at the air outlet vent, it is time to replace the filter.

WARNING:

Do not attempt to clean the filter. Washing or cleaning the filter will damage it and could cause injury.
Information is subject to change without notice.

Filter Replacement

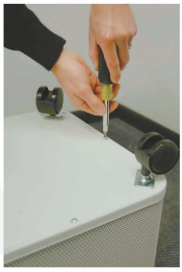

You will need a large trash bag, a pair of work gloves, and a Phillips screwdriver.

1 Turn the unit OFF. Unplug the Austin Air purifier from the power outlet.

2 Turn your Austin Air purifier upside down on a soft surface.

3 Using a Phillips screwdriver, remove the four retaining screws from the bottom cover.

4 Wearing a pair of protective work gloves, lift off the bottom cover and set it aside.

5 Carefully remove the filter and dispose of it in a plastic trash bag.

6

Remove the outer pre-filter and dispose of it in the same plastic bag.

7

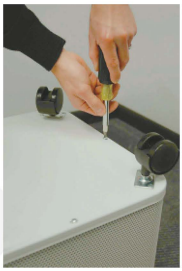

Install the new outer pre-filter, aligning the pre-filter seam with the power cord.

8

Install the new filter with the label (motor side) facing down.

9

Reposition the bottom cover and tighten the four screws without applying too much force; power screwdrivers are not recommended.

10

Turn the Austin Air purifier back over and run it at full power (III) for at least one hour.

Cleaning Instructions

Your Austin Air purifier is designed to require minimal maintenance. To remove dust buildup on the 360° air intake, vacuum the outside of the unit using the vacuum's brush attachment. To clean the other surfaces of the Austin Air purifier, wipe with a soft, damp cloth.

Choosing a Location

Based on years of research and experience, we recommend placing the air purifier in your bedroom.

We recommend placing the Austin Air purifier on the floor, leaving at least 10 cm of space between the unit and the wall. Pollution is everywhere, and the bedroom is no exception. Homes today are built tighter to save energy. Unfortunately, this seals allergens, mold, bacteria, chemicals and other contaminants inside.

Having the Austin Air purifier in your bedroom helps you breathe cleaner air through the night, with fewer allergens, dust and other contaminants.

3-Year Mechanical Warranty

For consumers, your Austin Air purifier is warranted against defects in material and workmanship under normal residential use for 3 years from delivery. The warranty is automatic.

In the event of a malfunction or fault, contact High-Tech Market customer service right away. The Austin Air purifier must be returned to the address provided by customer service. It must be shipped insured and well packed; original packaging is advised.

If the malfunction or fault is due to defects covered by this warranty, High-Tech Market will, at its discretion, repair or replace the air purifier and return it to the purchaser.

This warranty is limited to the original retail purchaser and is not transferable. It does not cover damage caused by accidents, abuse, tampering, or misuse, nor damage resulting from servicing performed by persons not authorized by us. High-Tech Market shall not be liable for incidental or consequential, direct or indirect damages.

For any questions or further information, email info@high-techmarket.it, or contact us via WhatsApp through our website, and we will get back to you promptly.

The complete Austin Air purifier lineup includes:

Our Commitment to You

A Warranty That Protects You

With a 3-year mechanical warranty and direct support from High-Tech Market, you can rest assured that you've made an excellent investment.

14-Day Right of Withdrawal

If you change your mind, you may withdraw within 14 days of delivery without giving any reason, under the conditions set out on www.high-techmarket.it on the "Right of Withdrawal" page. The unit is bagged and sealed for hygiene reasons: any limitations are described on the same page.

3-Year Mechanical Warranty

For consumers, your Austin Air purifier is warranted for 3 years from delivery against defects in materials and workmanship under normal residential use. The warranty is automatic: registration allows faster support.

Filter Life Up to 5 Years

You will no longer need to replace filters every few months: Austin Air filters are designed to last up to 5 years under normal residential use. Filter life is not covered by the warranty.
